Website Address: https://athabascau.acquiretm.com/job_details_clean.aspx?ID=1678

Job Description

This is a full-time, research and teaching position at the RAIC Centre for Architecture within the Faculty of Science and Technology at Athabasca University ("The Centre"). The position requires a focus on technical studies, particularly as they relate to environmental sustainability.

This position will be part of a team responsible for teaching, research, implementation and development of the B.Sc. in Architecture and the Graduate Diploma in Architecture programs, and for the continuing development of these and other programs.

About the Centre:

Athabasca University and the Royal Architectural Institute of Canada (RAIC) have formed the RAIC Centre for Architecture at Athabasca University whose mission is to provide an inclusive, accessible and comprehensive education in architectural studies with an emphasis on environmental sustainability.

This is Canada's first online architecture program and it consists of a Bachelor of Science in Architecture, a Graduate Diploma in Architecture and the RAIC Syllabus. The RAIC Syllabus is an experience-based, work-study program culminating in the RAIC Syllabus Diploma in Architecture which is an alternative path to professional licensure as an architect in Canada.

Educational credentials will be verified upon hire. All educational credentials must be recognized in Canada.

Please note that only applications received through our online recruitment system will be accepted.
<http://careers.athabascau.ca/>

All qualified candidates are encouraged to apply; however, Canadian Citizens, Permanent Residents, and Landed Immigrants will be given priority.

We are committed to employment equity and encourage applications from women, Indigenous peoples, persons with disabilities, and members of visible minorities.

Qualifications & Skill Sets

Job Requirements:

The successful candidate must have a professional degree from an accredited architecture or engineering program. An advanced post-professional degree (Master or PhD) is preferred. Equivalent professional experience will also be considered. Must be eligible for professional registration as an architect or engineer in a Canadian jurisdiction. The Centre provides an architectural education that is based on the standards established by the Canadian Architectural Certification Board.

Contact Information

(Please indicate any documents which applicants are required to submit, i.e. portfolios, cover letter, etc)

For further information regarding this position, please contact Dr. Douglas MacLeod at 1 855 212 1747 or via email: dmacleod@athabascau.ca

You must include your resume and letter of application when applying, along with the names, telephone numbers, and email addresses of three references.
