Job Description

The City of Surrey is the second largest city by population in British Columbia after Vancouver. With 1,000 new residents per month, Surrey is estimated to surpass Vancouver as the largest city in BC by 2041. It is located only 23 km from Vancouver City Centre and offers more affordable housing options. Residents of Surrey enjoy beautiful urban forests, hiking/biking trails, beaches and world class golf courses. Joining the Thinkspace team means working in a diverse community, while being part of a dynamic and growing firm, and enjoying a work-life balance to match.

Our Surrey office is currently looking for highly self-motivated and self-directed Architects/Designers to act as project managers for the design and management of a variety of medium to large and complex institutional projects, from inception to completion of construction. Candidates must present comprehensive and well-rounded qualifications, including:

- an inquisitive and rigorous design sense
- understanding of / experience with major institutional projects
- in-depth understanding of building systems, including the building envelope
- understanding of / experience with sustainable design
- experience/ability to manage staff and coordinate consultants
- ability to plan, direct, and execute a set of design, tender and construction drawings and specifications
- contract administration experience including field reviews
- strong communication skills

Qualifications & Skill Sets

The ideal candidates will be BC or Canadian registered Architects with 10+ years of post-registration local Canadian experience.

Candidates must be strong architectural designers with excellent design/drafting abilities, having acquired these skills on institutional projects. Other preferred attributes include LEED® Professional registration, and specification writing experience. Priority will be given to candidates with experience in all phases of the procurement process and possessing the desire and ambition to take a leadership role in the firm.

Thinkspace offers a stimulating work environment with an emphasis on continuous learning and career advancement. With many projects in the pipeline, we are growing our team and developing our members for long-term career growth opportunities.
