Job Description

BCW Architects is seeking a Junior Architectural Technologist to join our dynamic team in Calgary. The successful candidate must have a minimum of 2 years of experience in an architectural firm and be knowledgeable in a variety of building construction methods. The individual will assist in the production of high quality construction documentation and will contribute to the overall success of the firm.

Why Work for BCW Architects?

BCW Architects is an established firm with more than 50 years of experience. We continue to believe in being creative in our building designs to achieve solutions that are both sensitive to the Community and are Sustainable. In our many years of practice we have had clients in all parts of the provinces of Alberta, British Columbia and Saskatchewan, in both the private and public sectors.

Our firm is located in Calgary, Alberta, Canada and is a participating member of the Royal Architectural Institute of Canada (RAIC) and Alberta Architects Association (AAA).

At BCW Architects we recognize that we are only the sum of our parts — we look for talented, inspired individuals who bring energy and passion to our culture along with a collaborative spirit to our work. We aspire to cultivating a fun work environment that encourages creativity, innovation and teamwork.

Responsibilities
