**Job Description**

Company Description

We are a global team of dedicated and experienced architects, engineers, planners, designers and technology professionals who share a common desire – to help our clients create livable, sustainable, and advanced urban environments.

From high-rises to industrial buildings, schools to state-of-the-art hospitals, transit stations to highways, airports to toll systems, bike lanes to parks, we design every aspect of a truly integrated city for people to live, work, and play.

Our collaborative and combined approach focuses not only on creating the best solutions today, but also determining the right solutions for tomorrow. We believe cities in the future must be designed with intelligent systems, sustainable buildings, efficient infrastructure, and a human touch.

At IBI, we're defining the cities of tomorrow.

Our values:

Integrity – We do what is right.

Partnerships – We work together.

Excellence – We pursue design excellence.

Innovation – We embrace ingenuity.

Community – We build community.

Job Description

Here is how we work:

IBI Group's Kelowna office is searching for an Architectural Technologists to join its growing team. In this role you will have the opportunity to work with our Healthcare practice in Kelowna and Vancouver.

Most of the things you'll work on:

Assist in the preparation of presentation materials for client review

Development permit application, building permit application and construction drawings

Successful candidate will support the project manager on field services and construction administration

Work on multiple projects at the same time

### Qualifications & Skill Sets

You'll need to have:

Graduate from a recognized Architectural Technology Program

Minimum of 3- 5 years related experience on large scale projects

Knowledge of building codes, standards and building structures in the province of BC

Ability to understand how buildings are constructed and to create technical documents that succinctly describe the work to be done

Experience as a technologist in an architectural firm with a focus on Revit based projects is a must

Local knowledge considered an asset

Healthcare experience considered an asset
