AAA Member : Yes No

Job Title: Intern Architect

Job Type (F/T or P/T): F/T

Location(s): Edmonton

Expected Start Date: ASAP

Website Address: www.stantec.com

Job Description

The buildings that make up the landscape of our daily lives seem like permanent fixtures, fastened to a time and place. But what if that didn't have to be true? What if our built environment — where we live, learn, play, and conduct business — carried us forward instead?

Our Buildings practice keeps people at its heart, recognizing that our shared journey forward is shaped by the meaningful and responsive places we design. From iconic designs to monumental groundbreakings, join us to bring transformational building solutions to life. Every day we apply our expertise, creativity, and passion to propel communities into the future—join us!

Your Opportunity:

You will work on tasks under the guidance of an Architect or Senior Designer. This is an intermediate level Architect Intern design role. You will be designing architectural schematics, developing space programming and site planning, as well as developing the form of the building, sections, and architectural details. You will be working with an innovative team on creating new sustainable prototypes.

Your Key Responsibilities:

- Under the direction of the Senior Architects, develop various designs in the education, commercial, retail, and healthcare sectors
- Assist in various business development activities such as writing proposals, attending conferences, reviewing work plans.
- Evaluate and assimilate design changes introduced by the client or the project architect.
- Coordinate the architectural design with other members of the design team along with engineering consultants and specialist design disciplines.
- Manage multiple projects at the same time, with minimal supervision.
- Assist in the preparation of deliverables at all project phases.
- Support good policies on project delivery, quality control, and safety

Qualifications & Skill Sets

Your Capabilities and Credentials:

- In the process of becoming a Registered Architect in Canada.
- Strong BIM knowledge and Revit proficiency is a must with the expectation of preparing virtual reality tours.
- Experience with a wide range of illustration and rendering software is an asset.
- Proven technical understanding of building science and construction contracts.
- Able to work effectively in managing multiple projects, priorities and deadlines.
- Strong communication and interpersonal skills, as dealing with clients and design team members

Education and Experience:

A degree in Architecture (4 year) Undergraduate or Masters' degree

A minimum 5 years' experience as a graduate architect, on a wide array of projects

Typical office environment working with computers and remaining sedentary for long periods of time. Field work may include exposure to the elements including inclement weather.

This description is not a comprehensive listing of activities, duties or responsibilities that may be required of the employee and other duties, responsibilities and activities may be assigned or may be changed at any time with or without notice.

Stantec is a place where the best and brightest come to build on each other's talents, do exciting work, and make an impact on the world around us. Join us and redefine your personal best.
