Job Description

The buildings that make up the landscape of our daily lives seem like permanent fixtures, fastened to a time and place. But what if that didn't have to be true? What if our built environment — where we live, learn, play, and conduct business — carried us forward instead?

Our Buildings practice keeps people at its heart, recognizing that our shared journey forward is shaped by the meaningful and responsive places we design. From iconic designs to monumental groundbreakings, join us to bring transformational building solutions to life. Every day we apply our expertise, creativity, and passion to propel communities into the future—join us!

Your Opportunity

As a senior contributor on our professional Architecture team you will work independently to assist clients through the planning and creation of fiscally responsible, award-winning designs. Your experience ensures that you are quite familiar with construction plans, specifications, estimates and building codes. You will be innovating and creating new prototypes designed with sustainable products with green architecture sensibility as your goals. You will lead the development of integrated design proposals, continuous updating of a building information model, preparing a variety of output / drawings throughout the project, while leading and mentoring others and collaborating with team members to contribute to the final deliverables as required under instruction from the Project Leader.

Your Key Responsibilities

- Lead collaboratively, the growth and development of the K-12 and Higher Education sector for Stantec in British Columbia
- Assist in strengthening the design brand of Stantec to achieve its goals of becoming a top ten global design firm
- Secure Exceptional clients for Stantec and deliver high quality, profitable projects for the firm that enhance Stantec's Design and Brand Recognition in Buildings
- Manage the Planning and Design process with clients on projects related to the K-12 and Higher Education sector that come to Stantec through you and support the growth and development of other Stantec Architecture and interior design resources
- Program, develop methodologies and design approaches for the product type through the project design and documentation phases
- Lead multi-disciplinary project teams including consultants and collaborate with existing Stantec Engineering leadership to grow Stantec reach, client pool, and design brand
- Work on a variety of K-12 and Higher Education projects from design thru construction administration and mentor others who are emerging leaders in that practice
- Collaborate with team members within the project team and leverage Stantec skills in K-12 and Higher Education strategically
- Lead in identifying project opportunities, marketing Stantec services and winning work
- Perform limited administrative and office management tasks
- Be active members within the communities that Stantec serves
