Job Description

The buildings that make up the landscape of our daily lives seem like permanent fixtures, fastened to a time and place. But what if that didn't have to be true? What if our built environment — where we live, learn, play, and conduct business — carried us forward instead?

Our Buildings practice keeps people at its heart, recognizing that our shared journey forward is shaped by the meaningful and responsive places we design. From iconic designs to monumental groundbreakings, join us to bring transformational building solutions to life. Every day we apply our expertise, creativity, and passion to propel communities into the future—join us!

Your Opportunity:

Your role as a senior (Job Captain/Senior Arch. Tech) contributor on our professional Architecture team is to work independently to assist clients through the planning and creation of fiscally responsible, award-winning designs. Your experience ensures that you are quite familiar with construction plans, specifications, estimates and building codes. You will be innovating and creating new prototypes designed with sustainable products with green architecture sensibility as your goals. You will lead the development of integrated design proposals, continuous updating of a building information model, preparing a variety of output / drawings throughout the project, while leading and mentoring others and collaborating with team members to contribute to the final deliverables as required under instruction from the Project Leader.

Your Key Responsibilities:

- Advocates and inspires creativity, critical thought and technical excellence both internally and externally.
- Assists in identification, recruiting, and interviewing of technologist staff at all levels.
- Fosters collaboration between offices while promoting and providing design vision as it relates to building technology and systems.
- Acts as a mentor, teacher and coach to design staff with the goal of growing and guiding them through their careers.
- Evaluates the quality of technical design and activities and assure a high level of technological quality throughout the firm.
- Participates in performance reviews including setting of job goals.
- Assists in production of design award submissions.
- Engages staff in discussion on technology and building systems to ensure process is followed and influences usage of technological tools.
- Acts as a vehicle for the delivery of firm's message on building technology and systems.
- Expresses philosophy of the work with appropriate vocabulary.

~~- Ambassador and steward of the firm's portfolio of work with ability to guide and educate others.~~

Qualifications & Skill Sets

Your Capabilities and Credentials:

- Extensive project experience supports in the ability to win work during proposal response.
- Capable of simultaneously supporting one or more Principal's in Charge on multiple projects.
- Excellent understanding of accessibility codes, life-safety codes, building construction systems, means and methods, materials, and industry associated standards.
- Proactively takes appropriate action without requiring continued direction or guidance.
- Effectively manages multiple deadlines and priorities.
- Team player with the client, entire project team and contractor.
- Excellent negotiator and communicator.
- Requires understanding of Microsoft Office Suite, Prefer experience with Revit, AutoCAD, SketchUP, Newforma, MS Project.

Contact Information

(Please indicate any documents which applicants are required to submit, i.e. portfolios, cover letter, etc)

Education and Experience:

Bachelor's degree in Architecture or related field & Registered Architect. Minimum of 10 years of experience. LEED Green Associate or LEED AP preferred.

Typical office environment working with computers and remaining sedentary for long periods of time. Field work may include exposure to the elements including inclement weather.
