Job Description

BlueGreen Architecture is a multifaceted, mid-sized team, of creative and forward-thinking individuals. We work from two collaborative studio environments located in Kamloops and Kelowna. Our practice is dedicated to solution based, intelligent and sustainable designs; striving for design initiatives that preserve and enhance the environment as well as the surrounding community. We offer over thirty years of experience with private sector developments that has led the firm to an imperative balance between client requirements, user groups, and the unique environmental concerns of each project site.

- * position is full-time, permanent with benefits and a future profit share program
- * must have effective communication, organizational and leadership skills
- * a solution based problem solver in both complex client and jurisdictional environments
- * demonstrated experience in the ability to develop design concepts and construction documentation for a wide range of projects
- * Experience with AutoCAD and/or Vectorworks and 3D modelling
- * Experience with sustainable and resilient building strategies and systems

Qualifications & Skill Sets

- * 10-15 years Registered Architect
- * Registered or eligible to register with the AIBC
