Location(s): Calgary, AB Expected Start Date:
Website Address: <https://jobs-elevatedhr.icims.com/jobs/1602/senior-architectural-technologist/job>

Job Description

Currently, SAHURI + partners architecture is looking for a new Senior Architectural Technologist to add to their team. The right candidate will bring many years of varied experience to the team and help elevate the current team to even higher levels of greatness!

RESPONSIBILITIES:

- Prepare drawings using AutoCAD and REVIT
- Construct virtual models of architectural designs
- Produce, analyze and advise on detailed specifications for suitable materials or processes to be used
- Prepare listings of quantities of material from conceptual drawings and instructions
- Analyze building codes, by-laws, space requirements, site requirements, client standards and other technical documents and reports
- Prepare contract and bidding documents such as Development Permit and Building Permit documents
- Lead the technical development of the design process and coordinate design information
- Lead and mentor the junior technologists on the architectural team

Qualifications & Skill Sets

QUALIFICATIONS:

- Minimum 10 years' experience. Experience in an architectural firm would be an asset
- Fluent in AutoCAD and REVIT
- Proficient with Microsoft Office programs such as Outlook, Word and Excel
- Well-rounded experience, with an emphasis on commercial and institutional projects
- Experience organizing and assembling construction documents
- Ability to communicate effectively with consultants, clients, and contractors; experience coordinating work of consulting engineers, design team and contract administration team
- Strong communication, organizational and collaborative skills. The ability to translate design intent into contract documents is a must
- General knowledge of building materials, construction techniques, building code etc.
- Ability to be critical of progress drawings and provide quality control reviews for the team

WHY SAHURI + PARTNERS:

- This isn't your average company – they move at the pace of lightening and expect you to move faster – you will be challenged daily
- A competitive salary and benefits
- You won't have to wait for your role to define you, you define it
