Location(s): Calgary

Expected Start Date: ASAP

Website Address: www.kasian.com

## Job Description

Kasian is one of the largest integrated architecture and interior design firms in Canada. With a network of offices across Canada and overseas, we are a local firm with a global reach. We strive to enhance the human experience through great design. Our passion is rooted in strengthening connections between people and places by creating environments that inspire and improve lives. From complex operational facilities to finely-crafted workplace interiors, Kasian's breadth of expertise and dedication to excellence has been the driving force behind great design and strong relationships for over 30 years.

We have an exciting opportunity in our Calgary office for a Senior Technologist who brings experience working as a Job Captain on projects in a Revit environment. Using your Revit skills, you will work with a team to lead a variety of production tasks to prepare documents needed to take a building from original concept to completion. You will have responsibility for coordinating, managing and preparing the design development documents and construction documents for innovative and complex projects.

What you'll be doing at Kasian:

- Work with your project team to deliver project documentation requirements through all project phases
- Lead, develop, prepare, and review Design Development Drawings (DD) and outline specifications
- Lead, develop, prepare, and review Contract Documents (CD) and specifications
- Ensure coordination of consultant documentation with respect to project criteria, client program, drawings, and specifications; review the work of consultants
- Direct the preparation of tender documents
- Attend coordination and site meetings
- Coordinate drawing production to accommodate required tender packages
- Research construction materials
- Perform code and bylaw analysis
- Perform Quality Control procedures
- Provide mentorship and guidance and direction to other Production Team Members

What you bring to Kasian:

- A minimum of eight years of experience as an architectural technologist
- An Architectural Technology Diploma or Architecture Degree
- Experience working on projects in a variety of sectors – commercial, healthcare, institutional, mixed-use, industrial, transportation
- Proficiency in construction documentation including envelope detailing
- Fluency with Revit
- A solid understanding of current building systems, materials, and building codes
- Rendering experience is an asset
- A passion for accuracy
- A collaborative and flexible approach
- Motivation, great organizational skills
- Excellent communication skills
- Experience mentoring junior and intermediate technologists
