Job Description

Interior Designer – Maternity Leave Position

Berry Architecture + Associates is seeking a motivated, creative, and detail-oriented Interior Designer to join our Red Deer studio. This is a temporary full-time position to cover a staff maternity leave and would be of 12 months duration. We are looking for someone who is passionate about designing inspirational and transformative spaces that enhance every aspect of a community, with a focus on educational, healthcare, commercial, and seniors' housing projects.

We believe that the “inside” of a space is just as important as the outside. For us, great design is created through a collaborative process with a focus on the well-being of a building's occupants and one that leaves a lasting impression on those who enjoy our spaces.

What you'll do:

- Develop innovative design concepts which are practical, aesthetically appealing, and meet functional goals within the project budget;
- Lead and participate in the production of design deliverables including presentation materials and submission documents;
- Champion the integrity of the design through all project stages;
- Work with the design, technical, and contract administration teams to produce successful projects from design to construction.

What you bring:

- Two or more years of experience;
- Post-secondary diploma or degree in Interior Design from a CIDA accredited University/College;
- Technical drawing experience in Revit, Sketch-Up, and Adobe Creative Suite is necessary;
- Experience with Interior Design drawing package production and industry standards, including all relevant plans, elevations, details, schedules, and information;
- Moderate knowledge and application of accessibility, zoning, and building codes;
- Moderate knowledge of building construction systems, means and methods, materials, and industry associated standards is expected;
- Possess or are working towards IDA or AAA Registration is an asset.

Bonus Points if you have:

- Experience with Enscape, Lumion, and/or other rendering programs;
- Excellent graphic communication and presentation skills;
- Possess or are working towards NCIDQ and LEED accreditation.

What's the benefit for you?

Our Interior Designers are exposed to all aspects of the project process from conceptual design, drawing production, materials research, presentations, and contract administration. We offer a creative, studio-setting atmosphere where you would be working as part of a collaborative team.

We offer competitive wages, group benefits, social events, and opportunity for growth.
