

Job Information

Employer Name: Hodgson Schilf Evans Architects Inc.

AAA Member : Yes No

Job Title: Intermediate Design Architect

Job Type (F/T or P/T): F/T

Location(s): Edmonton

Expected Start Date: ASAP

Website Address: www.hsea.ca

Job Description

We have an exciting opportunity for an Intern or Registered Design Architect to join our team.

Who we are

Hodgson Schilf Evans Architects Inc. is an Architectural and Interior Design firm registered in Alberta, British Columbia and Saskatchewan.

Our team consists of 32 highly talented Architects, Interior Designers, Project Managers and Technologists many of whom have been with us since the Firms inception.

Our office is structured to encourage interaction and collaboration. Our people are strategically located in the office to foster growth and to promote mentorship through the sharing of ideas, interactive and inclusive problem solving, and the sharing of knowledge. Through our collaborative design and mentoring approach, all team members are exposed to the varying phases of project delivery from design through to the completion of construction.

The position

As an Intermediate level Intern or Registered Architect with a Design focus, you will have a passion and talent for design and take excitement with participating in changing the built physical environment in positive ways. The ability to take program challenges and client requirements and translate into exciting project proposals is required. Strong visual communication skills are a must, and the ability to use 3D modeling as a design tool and create stunning visuals for presentations is necessary.

Qualifications & Skill Sets

Duties & Responsibilities

Daily design, programming, and/or technical development of a project, including investigation, evaluation, and recommendation of design solutions that best meets the client's needs.

Responsible to manage the design process with Clients while engaging other HSEA team members

Independently evaluate, select and apply architectural solutions for specified assignments

Independently applies advanced architectural concepts and designs and produces materials to convey those concepts to the team, the Client and the contractor.

Able to communicate and present design issues and solutions internally.

Able to manage deliverable production and schedules independently for small to mid-sized projects.

Able to manage tasks on more than one project at a time.

Mentor and develop junior team members

In-depth knowledge of building codes and construction procedures

Requirements

8 or more years' of related experience in a similar role.

Exceptional 3D Visualization skills and solid rendering ability

Advanced knowledge of design technology software including Revit, CAD. Solid working knowledge with Bluebeam and Adobe Creative Suite (InDesign, Illustrator, Photoshop).

Ability in oral, written, and graphic communication.
