AAA Member : Yes No

Job Title: Senior Technologist

Job Type (F/T or P/T): F/T

Location(s): Calgary, Edmonton or Vancouver

Expected Start Date: May 2021

Website Address: www.s2architecture.com

Job Description

S2 Architecture is seeking an experienced Senior Technologist to join our dynamic team in either of our Calgary, Edmonton or Vancouver studios.

The successful candidate will have knowledge and practice in a variety of building construction methods and previous Canadian or North American experience in architectural design. This individual will lead teams of technologists in the production of detailed contract documents (for large and/or technically complex projects), including drawings and specifications, within a team environment. The technologist role focuses on building sciences including design, building/construction codes, coordination and integration of building systems (mechanical, electrical and structural), materials and methods of construction.

The individual will provide expertise in the production of high quality construction documentation and technical innovation, and will fulfill a role that is crucial to the overall success of the firm. This senior role provides leadership and direction to team members to develop in-house expertise and efficiencies of our work. Able to manage time and schedules to meet project deadlines. Self-motivated and able to develop a well-coordinated set of contract documents

We believe that buildings and interior spaces affect everything in our lives. They influence our mood and our behaviour, and impact our overall wellbeing. Our people are our biggest asset – and it's about having the right people in place. Are you that person?

Come shape the world with us.

We believe that work and fun mix well together. Office life shouldn't be a total grind – after all, if you're happy, then you'll be more inspired. When you're inspired, you'll be more engaged, motivated and driven.

At S2, you'll be part of an amazing team of diverse individuals across three studios – Calgary, Edmonton and Vancouver. We provide full service architectural, interior design and master planning with an approach of inclusion, respect and collaboration among studios to creating enduring architecture that provides meaningful and moving contributions to the built environment.

Our work spans a broad range of building and project types and the foundation of our success is deeply rooted in the delivery of creative and functional solutions for our clients, our communities and the environment.

If you have a passion for great design, teamwork, superior client service and a little bit of fun, then you may be a great match.

S2 offers the chance to work (and play) in an engaging team environment that supports fine tuning of skill sets and expertise, while being given the opportunity to pursue professional goals. We offer valuable benefits and are committed to providing opportunities, excellent professional and personal benefits.
