Employer Name: Kirkor Architects and Planners

AAA Member : Yes No

Job Title: Intern Architect

Job Type (F/T or P/T): Full time

Location(s): Calgary office

Expected Start Date: _____

Website Address: www.kirkorarchitects.com

Job Description

KIRKOR believes in active leadership. In every phase of a project, direct involvement and oversight of partners is central to the way we work. This approach reflects our philosophy of service. We fully embrace the responsibility to foster close relationships with all of our partners and clients from local residents to civic officials. The spirit of collaboration and careful listening encourages a strong, collaborative and supportive project community in all aspects of KIRKOR's work, including how we support our growing studio.

Qualifications & Skill Sets

We are seeking an Intern Architect for our office. As the successful candidate you are able to deliver professionally executed projects with high levels of technical competency. Your 4+ plus years' professional experience combined with your strong knowledge and project work on residential developments, within the Alberta and/or Ontario market will enable your success on these multifaceted projects. You must have working knowledge of the Building code, and a strong understanding of development application approvals.

RESPONSIBILITIES:

- Design and refine projects under guidance of Partner.
- Prepare and coordinate designs for Rezoning Submissions, and Site Plan Approvals.
- Prepare presentations for meetings with city staff, Urban Design Review Panel, and Public Consultation Meetings.
- Attend consultation meetings to gain understanding of client and community requirements.
- Prepare design drawings for client review, including floor plans, elevation and section drawings, 3D massing studies, shadow studies, calculation of project statistics.
- Design and revise suite layouts

QUALIFICATIONS:

- Bachelor and/or Master of Architecture (working towards Internship).
- Preferred 5+ years' experience, preferably in residential midrise/high-rise, and mixed use developments within the Canadian market.
- Excellent knowledge of the Building Code.
- LEED accreditation, or working towards, an asset.
- High level of skill with Revit required.
- Experience with Adobe Suites, Photoshop, or Illustrator is expected
- Working experience with Lumion, Vray or other software is an asset.
- Solid organizational skills, communication and interpersonal skills
