Job Description

WHO WE ARE

Keystone has a well-established reputation of a client-focused approach. For over 30 years, we have been cultivating a successful design process that combines innovative design with practical solutions and transforms projects into developments of lasting value.

Our People are absolutely foundational to our success and who we are. We believe in fostering an atmosphere of creativity, teamwork and success together - through a collaborative approach, each member of our team has the opportunity to contribute. Because of our diverse portfolio, company structure, and philosophy, we give our employees the exciting opportunity to gain knowledge and experience in their careers while working on a variety of project types & locations, with a variety of client groups, and throughout the project phases.

Keystone highly encourages and invests in career development opportunities, as well as growth and advancement within the work place. We also believe in a hard work, hard play mentality and we like to have fun both while at work and outside of work as a team!

WHAT WE HAVE TO OFFER

We have a highly team-oriented, positive and collaborative work environment and we generously reward the success that we achieve together as a team. Our total compensation package includes (but is not limited to) the following:

- Competitive base compensation
- Employees share in the profits through a performance metrics-based bonus system
- Benefits plan including dental, extended medical (with generous paramedical practitioners coverage), life and disability insurance
- Individually customizable work schedule
- Higher than standard vacation allowances and allotments
- Continuing education allowance
- Regular events and team building activities
- Work/life balance

The successful candidate will be offered a competitive compensation package that will vary depending on experience and qualifications.

Qualifications & Skill Sets

QUALIFICATIONS

- Architectural and Building Technology Diploma or equivalent education
- Preferably 3 years+ post-graduate experience in the Architectural Industry (minimum 2 years)
- Experience in the production of Schematic Design and Construction Documents utilizing Revit software
- Experience working on a variety of typologies including wood frame, Multi-family and high-rises in Alberta and British Columbia would be an asset

SKILLS

- Experienced with Revit software
- The ability to produce quality drawings with required software in all Architectural phases
- The ability to work well within a team setting
- An eagerness to learn
- Problem solving capabilities
- A sense of humor and ability to have fun!
