AAA Member :  Yes  No

Job Title: **Intermediate Architectural Technologist**

Job Type (F/T or P/T): **F/T**

Location(s): **Calgary, Alberta**

Expected Start Date: **N/A**

Website Address: **sahuri.com**

**Job Description**

Sahuri + Partners Architecture Inc. is a professional, full-service architecture and design firm focused on achieving design excellence and sustainability. We are excited to announce that we are on the hunt to bring on an Intermediate Architectural Technologist to our team in Calgary!

To find out more about Sahuri + Partners, visit [sahuri.com](http://sahuri.com)!

As an Intermediate Architectural Technologist your day-to-day responsibilities will shift and vary each day but a glimpse into the day in the life includes:

- Prepare drawings using computer-aided design i.e Revit
- Construct virtual models of architectural designs
- Participation in team meetings to help resolve technical issues, reviewing work progress, and completing quality control reviews
- Produce, analyze, and advise on detailed specifications for suitable materials or processes to be used
- Prepare listings of quantities of material from conceptual drawings and instructions
- Analyze building codes, by-laws, space requirements, site requirements, client standards and other technical documents and reports
- Prepare contract and bidding documents such as Development Permit and Building Permit documents
- Leading the technical development of the design process and coordinate design information
- Providing strong leadership and support to junior colleagues

What's in it for you?

- Competitive salary based on experience
- Excellent health and dental benefits
- A hybrid work environment and a collaborative team dedicated to exceeding client expectations

To Apply:

Please email your resume and cover letter (in one document!) to our HR partners at [recruitme@elevatedhr.com](mailto:recruitme@elevatedhr.com). While we thank all candidates who apply, only those deemed qualified by the hiring managers will be contacted.

## Qualifications & Skill Sets

The right candidate will demonstrate on their resume:

- 5 to 7 years progressive experience working on a variety of commercial projects
- Certificate or Diploma in Architectural Technology
- Proficiency in Revit and Microsoft Office
- Attention to detail and strong organizational skills
- Strong experience of the Alberta Building Code would be considered an asset

During the interview process, we will be looking for behaviors that demonstrate:

- Exceptional interpersonal communication skills across all levels of the organization
- Excellent time management skills and the ability to work under pressure
- Highly motivated, team player with strong organization and problem-solving skills
- An ability to provide multiple examples of coaching and leading teams; specifically to junior employees
- Strong understanding of construction processes including building codes, building systems, and other components

## Contact Information
