Job Title: Intermediate to Senior Architect or Urban Designer Job Type (F/T or P/T): P/T
Location(s): Calgary, AB. Expected Start Date:
Website Address: www.shugarmanarchitecture.com

Job Description

Shugarman Architecture and Design Inc. is an award winning firm located in Calgary working on a wide range of projects from master planning, commercial, residential and hospitality, in a small studio culture. Our projects are diverse and yet we approach each with the highest standards in design and innovation.

We are currently looking for an Intermediate to Senior Architect or Urban Designer, for a 4 month contract position to assist with a mixed use urban village master plan. The contract will start May 10 through to September 10, with the high likelihood of a further month extension.

We are looking to supplement a small team of two other Architects with an individual that can be devoted full time during this contract to visioning and execution of a high level programming, site analysis, concept development and visualization of a new cultural and commercial district.

Good writing skills is an asset. As is a good drawing hand, and computer visualization tools of sketch-up, and recent Revit experience.

Work will begin mostly virtually, however we are hoping that the final stages of the project may be completed within an office setting. All things being equal, preference will be given to an Alberta based professional. Pay will be commensurate with experience and negotiated after review of CVs and after the first discussion.

Qualifications & Skill Sets

see above

Contact Information

(Please indicate any documents which applicants are required to submit, i.e. portfolios, cover letter, etc)

Please submit CV and samples of previous master planning and visualization work to :
