Job Title: Senior Architect - Clinical Planner Job Type (F/T or P/T): F/T

Location(s): Ideally Toronto office but are open to applicants willing to work in \ Expected Start Date: _____

Website Address: www.dsai.ca

Job Description

Diamond Schmitt Architects has built an international reputation for design excellence across a range of building types. The company is a leading proponent of sustainable design innovation with a growing list of LEED certified buildings and zero-net energy projects. Design thinking that presents a strong sense of context and integration with the community distinguishes the studio's work.

The firm's design sensibility is matched with a successful business model that positions it among Canada's Top 100 Employers, GTA's Top Employers and Canada's Best Managed Companies™. More than 300 people work in our Toronto, Vancouver, Calgary and New York studios.

The ideal candidate will be an architect with at least ten years of diverse clinical planning experience with large, complex healthcare institutions and facilities and possess a demonstrated passion for excellence in healthcare planning and design. Excellent verbal and written communication skills, ability to manage and synthesize large amounts of program data, good organizational skills, and the ability to multi-task in a busy office, are key attributes.

Key Responsibilities:

- Apply proven and innovative clinical planning expertise to the development of outstanding healthcare architecture
- Lead the clinical planning process with clients and the design team
- Lead the coordination and integration of engineering disciplines and requirements of medical equipment
- Effectively manage the deliverables of the healthcare design team within aggressive project schedules
- Actively seek new knowledge in the design and planning of medical and healthcare facilities
- Promote industry knowledge through research, publications and presentations at conferences and symposia
- Support Business Development within the healthcare sector

Please send your resume and portfolio to hr@dsai.ca. We thank all applicants who have applied however only those selected for an interview will be contacted.

Diamond Schmitt Architects encourages and welcomes applications from people with disabilities. Accommodations are available upon request for candidates in all aspects of the selection process.

Qualifications & Skill Sets

- Licensed Architect
- Have fluency in applicable healthcare codes, regulations, standards and best practices
- Evidence of continuing education and research in the field of healthcare design
- EDAC (Evidence Based Design Accreditation), Sigma Six or LEAN qualifications are an advantage
- WELL certification is an advantage
- Working knowledge of REVIT
- Experience with dRofus or similar data management programs is an advantage
- Knowledge of Alternate Finance and Procurement models in the health-care environment
- Ability to work in a collaborative team environment and provide sound mentorship to grow the healthcare design team
