#### **Mentor's Confirmation**

Interns are required to select a Mentor before they begin recording experience in the Canadian Experience Record Book (CERB). The Mentor must be a Registered Architect. The Mentor acts as a professional advisor through the internship period, meeting regularly with the Intern to review progress in obtaining the necessary experience and to offer constructive advice.

#### **Internship in Architecture Program**

The Internship in Architecture Program (IAP) has been established by the Canadian Architectural Licensing Authorities (CALA) to continue to maintain a program of architectural registration/licensing in Canada that is both meaningful and effective. The IAP is also intended as a catalyst for improving the profession, by increasing effective communication between Architects and prospective members of the profession. To become registered/licensed in Canada, a person must demonstrate competency and qualifications to provide architectural services to the public.

Interns must remain in the IAP while experience is being gained and recorded and while examinations are being written to derive maximum benefit from the program.

There is general agreement among CALA jurisdictions on the standards for admission to the architectural profession in Canada. CALA has adopted Common Admission Standards regarding Education, Architectural Experience and Examination. Such standards facilitate reciprocal registration/ licensing across Canada under a reciprocity agreement entered into by CALA jurisdictions. These standards include:

- Established education requirements for admission as an Intern;
- Pre-registration/licensing architectural experience requirements;
- Architectural registration/licensing examination requirements.

The IAP contributes to the development of competent architects who can provide exemplary architectural services. A comprehensive internship program is necessary to acquire and reinforce the knowledge, integrity, judgment, skills, discipline and quest for learning that must serve the architect for a lifetime.

The objectives of the IAP are:

- 1. To define and document areas of architectural practice in which professional knowledge and skills must be gained in a structured, supervised and mentored environment;
- 2. To provide a uniform system for documentation and periodic assessment of internship activities;
- 3. To provide feedback and guidance to the Intern;
- 4. To involve the members of the profession in the development and training of future members.

For more information on the IAP or to obtain a copy of the IAP manual, contact the AAA or visit <a href="www.aaa.ab.ca">www.aaa.ab.ca</a>.

For further details on the Canadian Architectural Certification Board (CACB) visit <a href="www.cacb.ca">www.cacb.ca</a>.

For further details on the Intern Architect Program visit <a href="www.raic.org">www.raic.org</a>.

#### **Employer Responsibility**

The Employer is the Registered Architect within the firm or organization to which the IA is employed who personally supervises and directs the Intern on a daily basis. The Employer regularly assesses the quality of work performed and certifies the Intern's documentation of work experience activity.

Employers must have a clear understanding of the Intern Architect Program's objectives and experience requirements, and although not responsible for documenting the Intern's activities, must be familiar with documentation procedures.

#### The Employer is expected to:

- review the Guidelines for Mentors and Employers for the Employer's responsibilities during the Internship Program;
- · review the IAP Manual with the Intern and sign the appropriate declaration forms.
- offer the Intern the full range of responsibilities and opportunities afforded by the practice of architecture, to the extent that the nature of the practice allows;
- review and evaluate the Intern's experience and performance on a regular basis with the Intern and at the discretion of the Intern, either with or independently from the Mentor, and forward comments and recommendations to the provincial association;
- advise the Intern on the requirements of architectural practice including the Architects Act, Bylaws and General Regulations governing the profession of architecture;
- · certify the Intern's experience relating to employment within the practice.

#### **Mentor Responsibility**

The Mentor is a Registered Architect selected by the Intern, who is not employed by the same firm as the Intern. The Mentor meets with the Intern for regular reviews of experience progress, discussion of career objectives and broader issues related to the profession and the registration/licensing process.

The Mentor should be willing to commit to a long term involvement in the Intern's professional growth. The Intern-Mentor relationship personifies the architectural profession's historic traditions.

#### The Role of the Mentor is to:

- review the Guidelines for Mentors and Employers for the Mentor's responsibilities during the Internship Program;
- act as the Intern's professional advisor for the period of experience, by conducting meetings regularly
  with the Intern to review experience and performance and offer constructive criticism. Close contact
  with the Employer is encouraged;
- advise the Intern with respect to professional conduct and philosophy;
- review and assess the Intern's practical experience and advise of any deficiencies, recommending changes in emphasis that could result in a change of employment to achieve objectives, if necessary;
- advise the Intern on the requirements of architectural practice including the Architects Act, Bylaws and General Regulations governing the profession of architecture;
- · review the IAP Manual with the Intern and sign the appropriate declaration forms.

#### **Registration Interview**

#### General

The purpose of the Registration Committee Interview is to review all aspects of the applicant's preparation to date. The object of the interview is to review the readiness of the applicant to assume full responsibilities of a Registered Architect.

The Registration Committee has prepared an outline shown below to assist applicants to better understand the interview process and allow them to prepare accordingly.

#### The Interview

The Registration Committee will be interested in reviewing examples of your work which best describe your responsibilities in relation to all areas of professional practice. The portfolio should include a full range of work experience including working drawings, hard copies of contract administration correspondence, specifications, office reports, and other contract documentation in relation to recent projects that you have been involved in. Please ensure that you bring all of these items with you to the interview.

Note: you must be familiar with The Alberta *Architects Act*, *General Regulation*, Bylaws along with the *Builders Lien Act*, and Building and Fire Code as indicated in your signed declaration.

Applicants are expected to clearly demonstrate their involvement in any work or experience records presented at the interview and must be prepared to discuss their specific involvement of each phase of the projects presented. Preparation of an interview specific portfolio demonstrating your work experience should be considered.

Applicants will be invited to talk about their background as well as their career plans for the future. Applicants are expected to provide graphic documentation which demonstrates their professional (not scholastic) experience in the areas outlined below and can expect to be asked questions which provide the opportunity to display an understanding of the work presented. Applicants are encouraged to format this material in such a manner as to make it easily reviewed.

Presentation materials may include but not be limited to the following:

#### 1.0 Graphic

- 1.1 Conceptual Freehand or Software Sketching of Design Work in Progress Current Or Past Projects.
- 1.2 Presentation Drawings
- 1.3 Models or Photographic Representations of Models
- 1.4 Working Drawings
- 1.5 Finish Sample and Color Boards

#### 2.0 Technical

- 2.1 Building Code analysis for a specific project
- 2.2 Project Documentation
- 2.3 Specifications
- 2.4 Correspondence indicating involvement and knowledge of:
  - 1. Coordination of Engineering Consultants
  - 2. The Development and Building Permit Approval Process
  - 3. City Land-Use Bylaws
  - 4. Project Schedules

#### 3.0 Contract Administration

Ensure you bring <u>hard copies</u> of contract administration correspondence to the interview (you may be asked to produce these items)

- 3.1 Client Architect Agreements + Architect Engineering Consultant Agreements
- 3.2 Tendering Process Including Tendering Forms, Bid / Labour / Performance Bonds and Addenda

- 3.3 Construction Contracts Various Types
- 3.4 Site Meetings and Inspection Reports
- 3.5 Change Orders
- 3.6 Progress Claims and Holdbacks
- 3.7 Statutory Declarations
- 3.8 Lien Legislation
- 3.9 Substantial Completions, Total Performance
- 3.10 Warranty Period, Year End Inspection and Documentation
- 3.11 Statute of Limitations

#### **Fees and Dues**

The Fees and Dues Schedule, including payment methods, can be found on the AAA website.

**NOTE: Full payment of annual dues are payable at the time of registration.** Annual dues are payable on or before December 15 each year for the following calendar year.
